

COUNTY SUPERINTENDENT OF SCHOOLS' REPORT COMPLETED

Interesting Figures Show Statistics of County Schools; Increase of Pupils Expected

County Superintendent of Schools Roy W. Cloud has completed his annual report for the state department of education and the figures therein contained are perhaps of interest, as they show the statistics of the different departments of the county educational system. The most important facts are:

Kindergartens
There are 7 kindergarten districts employing 11 teachers. The average daily attendance in these was 271. The enrollment was 556, there having been 279 boys and 277 girls enrolled. During the year school was maintained an average of 183 days. The average salary of the kindergarten teachers was \$1213.63. It cost \$18,866.39 to maintain these schools.

Elementary Schools
There are 35 active elementary districts in which 202 teachers were employed. Of this number 167, or 82.6 per cent were normal or college trained. There was an average daily attendance of 5,801, which is a gain of 272 or a 5 per cent increase over last year. School was maintained 184 days. The average salary paid to supervising principals was \$3,120 and the average salary paid teachers was \$1,453.12. The enrollment was 6,717, which was made up of 3,615 boys and 3,202 girls. The boys were more numerous in each grade with the exception of the third, where there were 430 boys and 433 girls enrolled. The total receipts for elementary school purposes were \$742,581.92. Of this amount \$507,246.90 was expended, leaving a balance on hand of \$235,335.02. Of this amount about \$200,000 will be expended for building purposes.

High Schools
There are four high schools in the county with an average daily attendance of 1,048. High school was maintained 184 days. Seventy-two teachers were employed in the high schools. The enrollment was 2,285 and consisted of 1,338 boys and 947 girls. There were 54 boys and 75 girls graduated from these schools. The average salary paid the principals was \$3,700. The men teachers received an average of \$2,637 and the women an average of \$2,057 per annum. The expenditures for high school purposes amounted to \$406,379.31. Of this amount the buildings and grounds cost \$184,261.56. The tax rate for the high schools raised by the county was .158 and the rate for elementary purposes was .49. The average cost per pupil in average daily attendance was:

Kindergartens	\$ 67.69
Elementary	71.28
High school	211.94

The estimated value of all school property in the county is \$1,632,711. As will be noted above, there were 5,322 boys and 4,046 girls in attendance in the several schools during the year.

WORLD-FAMED COW HAS CALF

The Holstein-Friesian herd of Dr. W. H. Ketchum of Palo Alto gained a \$10,000 member Wednesday night when a bull calf was born to Maude Netherland Wayne de Kol II. The calf was sired by Creamery Pontine Burke. The dame stands third in the world for her milk and butter fat production record and stands first among cows west of the Rocky Mountains in the same respect. In 365 days she produced an aggregate of 32,631.9 pounds milk and 1,312.1 pounds butter fat, carrying the calf fully six months of the time. Maude Netherland is one of the few cows on record to produce over 1,000 pounds of butter fat from over 5,000 pounds of milk in a year.

Gaerdes et al., owners of the property, to sell them the property in accordance with an option executed at the time their lease was made on November 1, 1919. The plaintiffs allege that in tendency to exercise their option, they have expended \$4,000 in improvements and when they offered the defendants the amount provided for in the option they are refused to have refused to accept the same.

UNPAID NOTE CAUSES SUIT

The young man combines all the characteristics of his distinguished forebears. He will be heard from in Sacramento.

Drake moved and Mr. Thompson seconded that a telegram be sent to the Down Town Association of San Francisco to Mr. Carroll so as to be read at their highway luncheon, August 3, stating that the bureau strongly emphasized the necessity of emphatically working for a bridge construction simultaneously with the highway. It was pointed out that the present tendency is toward a highway, treating the bridge as a secondary consideration.

Mr. Hull suggested a piece of constructive work for the bureau's immediate consideration to be the connecting of the Alameda de las Pulgas with the Woodside road, thereby filling a gap with the idea of a foot-hill boulevard. Mr. Hull stated that this construction would to a certain extent relieve congestion on the main highway.

Supervisor MacPain, who was present, suggested that the board of supervisors be approached and intimated that this might be done in this manner. His remarks were received with applause and the president thereupon appointed President Towne, Asa Hull and F. H. Drake as a committee to approach the board on the matter at its next meeting.

President Towne announced the appointment of Mrs. L. E. Woodard and Mrs. E. C. Peck to the advisory board.

LEAVES ESTATE TO SON AND DAUGHTER

A holographic will, purporting to be that of Elizabeth Mary Gardner, who died at Belmont on July 15, was filed Monday in the office of County Clerk Elizabeth M. Nash, together with a petition of Ida F. Lloyd of Petaluma, a sister of the deceased, for letters of administration.

Mrs. Gardner was the widow of the late Dr. A. M. Gardner, who conducted the Gardner Sanitarium at Belmont. The will bears date of February 20, 1914, and orders that the entire estate be converted into cash as soon as practicable without loss.

After the just debts and administration costs are paid, \$10,000 is to be paid to the sister, Ida F. Lloyd, and \$5,000 each in cash to Ruby Gardner Lynch, a daughter, and Prentice S. Gardner, a son. The entire residue of the estate is to be placed in trust with the Union Trust Company of San Francisco and the income from the same is to be paid to the son and daughter, share and share alike, in monthly installments for the balance of their lives.

The petition, filed by Attorneys Dozier & Dozier of San Francisco and C. F. Kimball of Petaluma, recites that the value of the estate is estimated at about \$50,000, and consists of cash in bank, shares of stock in the Gardner Sanitarium, clothing, wearing apparel, diamonds and jewelry. The petition will be heard by Judge Buck on Thursday, August 18.

MARRIED AT BURLINGAME

Burlingame is at present receiving considerable attention from prospective brides and grooms and Justice of the Peace Grant B. Morris was called upon to officiate at several ceremonies. Genevieve C. Stack and H. M. Jorgensen, both of San Francisco, were the first to be joined in matrimony and later Leon F. Bellies and Agnes O. Eddy, also of San Francisco.

The run on the judge's services at weddings is due to the fact that Justice of the Peace Ray Griffin in Redwood City was absent from his court a few days due to illness, and Judge Morris is the closest justice to the county clerk's office.

His Irish compatriots here are anxiously awaiting his arrival to learn first hand news from bleeding and suffering Ireland, whose struggle for freedom has been the admiration of all people for centuries.

NEW TRUSTEE

One of the matters to be considered by the city council at its meeting next Monday evening will be the appointment of a successor to H. C. Tuchen, resigned. We have heard a number of possible appointees suggested, but we believe that Walter Kellogg, local manager of the Pacific Gas and Electric Company, will be the one selected.

The board could not make a better selection than Mr. Kellogg, as he is thoroughly conversant with the business affairs of the community. He has been active in civic affairs at all times and will make a splendid official.

Williams of Burlingame, United States attorney for this district, will also speak. Horace Amphet will act as chairman of the evening and the president of the club, E. E. Cunningham, will be in the chair.

On account of the high position held by Mrs. Willebrandt, the highest office in the United States government ever held by a woman, this meeting should be of special interest to the women, not only of the county but all women of the country.

HIRAM JOHNSON ATTACKED IN SOUTH BY POLITICAL ENEMIES

Question Asked by Emissaries of His Opponents Turns Out To Be a Boomerang

The well advertised purpose of certain women to ask Hiram Johnson a question or two had its theatric fulfillment at Trinity Auditorium in Los Angeles, says John A. Gray in the San Francisco Examiner.

It was a boomerang rather than a bombshell—a dud, one might say. It might have been effective except for two reasons. One was the senator himself and the other was his audience.

The women who filled the auditorium—and it was a woman's meeting—were about as unanimously for him as any assemblage he has yet addressed.

So when Mrs. William P. Cunningham, president of the Woman's City Club, faced Senator Johnson from a place before the railing and asked him, "Do you stand for a modification of the eighteenth amendment?" Johnson could not make himself heard for half a minute, so vociferous were the cheers.

What the senator did finally manage to roar above the gale of feminine voices was this: "I decline to answer any questions which are put in bad faith by emissaries of the Los Angeles Times."

And then there was a din of approving cries which rang again and again through the audience.

Speech in Answer
Mrs. Cunningham held to her place in the audience, for other women were seen to be standing, announcing thus that they were a part of the question asking committee.

Senator Johnson's vote for the eighteenth amendment and for the Volstead act and what he said just before the interruption aptly struck the most of his auditors as an answer to the question even in advance of its being asked, making the query superfluous.

"My attention," he said, "has been called to an article published in the Christian Science Monitor, written by a San Francisco critic, in which there is not a scintilla of truth. It was founded upon nothing before I came to California and describes a scene which has never existed."

"Make no mistake, my friends, as to where I stand upon the subject of law enforcement. Like every other man or woman elected to public office who realizes the responsibility of that position, I am for the constitution to the letter, and if my public record has not proclaimed as much then I should not come before you again asking for your suffrage."

It was at this moment Mrs. Cunningham arose with her question.

FAILS TO PROVIDE
In a suit for divorce filed in the superior court through Attorney G. D. Ferrell, Maria P. Holser, a resident of Burlingame, alleges that her husband, William C. Holser, though he with the necessities of life and hers were married at Pueblo, Col., on May 6, 1900, and separated on July 16, 1922. Mrs. Holser asks that she be awarded a decree of divorce, the community property consisting of household furnishings and real estate in Colorado.

SATURDAY, AUGUST 5

—WE ARE FOR—

HIRAM W. JOHNSON
For United States Senator

WILLIAM D. STEPHENS
For Governor of California

CHARLES A. SHURTLEFF
and

FRANK H. KERRIGAN
For Associate Justice Supreme Court

"Support the President," says Mr. Moore, now when he thinks such a slogan will help him in his desire to become Senator, but in 1920, when Hiram Johnson was on the stump, helping Harding, Moore was oppressively silent and his friends Marshall Simson and Chester Rowell were doing their utmost to defeat Harding and elect Cox. We're for the President all right and we're also strong for Hiram Johnson.

Hiram Johnson is a Senator and not a rubber stamp. He does not promise to swallow any old thing or say "me too," to any old problem. And we wouldn't like him if he did. He looks into every question thoroughly, fights for what he thinks is right and generally wins. California is fortunate in having a man of his capacity and courage in the Senate and should keep him there.

Senator Johnson is the most remarkable vote getter in America and the present contest will merely serve to demonstrate his popularity with the voters of California who admire his sterling character and appreciate his public service as Governor and United States Senator. Shrewd observers of things political say Hiram will carry every county.

President Harding is probably praying for deliverance from his pressing friends. Pinchot carried Pennsylvania. Beveridge beat his friend New in Indiana. Brookhart carried Iowa and McCumber was routed in North Dakota and many people have the idea that in all these instances, the administration was rebuked. And now comes Charley Moore seeking a seat in the Senate, without a platform, without a program of legislation, and without a by your leave plan himself onto the President, makes himself the self appointed sponsor of the President's policies. When the ballots are counted and Moore is snowed under, as he will be by Johnson, many people will charge it up as another defeat of the administration. Some one ought to advise the President about the situation in California before it is too late. Moore has no chance. Hiram Johnson will go back to the Senate by the biggest vote ever cast in his favor.

BUSINESS INCREASES

Business men all over northern California may be counted on to support the candidacy of Governor Stephens, according to Charles A. Bliss, prominent Sacramento attorney and former city commissioner of public health and safety.

"The tremendous increase of business in California under the Stephens administration is well known to every voter in the state," said Bliss, "and practically every business man with whom I talk comments favorably on the candidacy of the governor."

"A recent report of the state corporation commissioner shows that the total authorized capital stock of corporations for last year was \$1,005,189,975. Capital stock in the state amounted only to \$386,612,407 in 1917 when Governor Stephens first took office. A record such as this is surely an evidence of unqualified business progress and prosperity in California under the present administration."

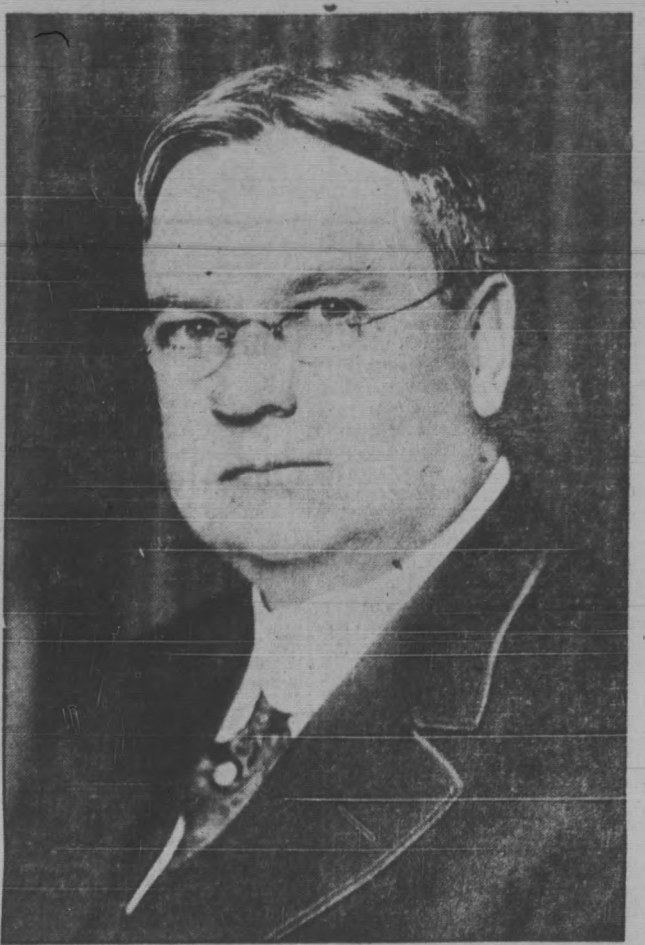

THE ELECTRIC RAILWAY

The San Francisco papers are now agitating the proposition of calling for a charter amendment to allow the city to acquire the San Mateo branch of the United Railway Company. This may help to solve San Francisco's problem of securing the opposition street railroad facilities but it may not be the pleasantest thing for San Mateo county to have a neighboring municipality own one of its principal public service corporations.

We are not sure that we would want to see our county purchase and operate a railroad but personally we would rather see San Mateo county acquire the property than see San Francisco secure it. It would be an opening wedge for the gobbling up of the peninsula by our big sister on the north. San Mateo county could get an enabling act through the legislature for the acquisition of the property as easily as San Francisco can. We can pass the necessary bond issue as easily. Perhaps we are talking socialism to mention county ownership, but we are willing to take our chances with such a form of socialism.

With county ownership the line could be continued to Menlo Park and a real service given to the communities along the line.

This is something that we should think about before it is too late for action.

HIRAM W. JOHNSON

WILL SWEEP THE STATE

Senator Hiram W. Johnson will sweep the state at the primary election on August 29. His friends are now placing his majority over Moore at 200,000. It will not fall short of this mark. All over the length and breadth of the state the voters are rallying to his support with enthusiasm. The Moore bubble has been punctured by the splendid argument of the great senator so that there is nothing left of it. Mr. Johnson will receive a larger vote in San Mateo county than ever before. This county is sure to be the banner Johnson county of the state. The Johnson sentiment is very strong in all sections of the peninsula. He is an able, industrious, hard working official and the voters of the state are determined to keep him at his post at Washington.

SOME IMPRESSIONS

We went to see Abraham Lincoln in San Francisco during the week. It is certainly a wonderful play and is wonderfully staged. The house was crowded to capacity and crowds of people were turned away. It seems strange that so many people are anxious to see the play. There is no love story in it. There is no plot. It is just the life of a simple American gentleman in his home in Illinois and the White House at Washington. His friends are shown and his characteristics are portrayed just as we had expected them to be. No one could see the play without realizing the greatness of the "typical American." He was majestic in his humbleness and wonderful in his compassion. The others in the play, General Grant, General Lee and John Hay, were good and showed a type of American manhood which it is well at this time to see. When we realize that it remained for an Englishman, John Drinkwater, to write and present the play in England we can know that the mother country is paying attention to her grandchildren. We salute Mr. Drinkwater as the author of a wonderful play.

You can never get anything for nothing. You will pay as sure as tax time is coming. The things we think we are getting for nothing often cost us more than anything we possess. Last Saturday a negro boy just in his early manhood tried to take a free ride under a Southern Pacific passenger coach. Now he is nursing a wounded stump of what was once his right hand, over at the county hospital. If he could only have thought of what might happen. He had jumped a train many a time before. He did it once too often. We have seen boys with only one arm. They are so handicapped. We have seen men with only one good leg. We have pitied them because of their misfortune. It seems to us that parents should tell their children of the peril of trying to beat some corporation or some firm. You can't get anything worth while for nothing. Nature says that you must and will pay for what you get.

Have you tried to Dodge 'Em at Pacific City? No? Well, you should try it. You'll get a real bump. You are looking for a kick, did you say? Well, you can get it on the scenic railroad. If you don't lose your breath and if your heart doesn't come up into your throat until you have to bite the end of it to keep it in then I am no judge of human anatomy. Pacific City is right there every minute of the time. It's a hum-dinger. We are glad it's here and we hope its founders will make a barrel of money out of it. It will attract people to San Mateo county. When they once come here they will Glen Ellen and was one of the large-

Hiram Johnson is a very remarkable man. In the atmosphere of Washington where many good men have exchanged their opinions for personal gain and surrounded their conclusions on public questions in order to cater to power. Johnson gives up not a jot or tittle of his independence and yet he maintains the friendliest personal relations with the President and with his colleagues in the Senate and gets almost everything he asks for his state. The rates in the new tariff bill on almonds, walnuts, olives, raisins, rice, eggs and citrus fruits will be worth millions to the farmers of California, and while all of our representatives in Congress worked hard to secure the desired result who have been on the ground participating in the fight concede the credit for the victory to Senator Johnson.

SUPPORTS JOHNSON

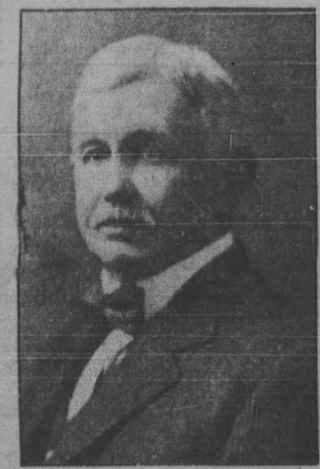

"In this year's campaign for the election of a United States senator politics should not be involved. Patriotism, not political lines, is involved. Party lines should be forgotten."

So said M. F. Tarpey, veteran Democratic leader, in accepting the office of first vice president of the Fresno Johnson for Senator Club. For the first time in his life Tarpey has registered as a Republican in order to cast his ballot for Johnson.

"Voting for Hiram Johnson is not a matter of politics. It is a matter of patriotism," Tarpey declared. "Wyllie M. Giffen, president of the San Mateo Raisin Growers' Association, was elected president of the Fresno club. The organization plans to get out the largest vote ever given to Johnson in Fresno county."

SHURTLEFF IS SAN MATEO COUNTY'S CANDIDATE

With a larger public interest may be centered in other contests, there is no more important question to be decided this fall than that of who

CHARLES A. SHURTLEFF

shall be elected to the Supreme Court. There are a short term and two long terms which will expire at the end of this year. Mr. Justice Waste is running for the short term without opposition. But for the long terms, which are for twelve years, there are four candidates. Hon. Charles A. Shurtleff of San Mateo county is running for one of the long term places. And whatever may be said for any other candidate may be said of Judge Shurtleff; whatever may be said against any other candidate cannot apply to Judge Shurtleff. Never before in our recollection has there been such general and united approval of a candidate, never has approval been voiced in so many different walks of life and among all classes.

Judge Shurtleff was appointed to the Supreme Bench by the Governor to fill a vacancy caused by resignation. His experience on the bench has fully vindicated the wisdom of his selection. Not only have the members of the bar of California and of the courts voiced their unqualified approval of him, but word of his fine sense of justice, his human sympathetic quality of his reasoning in applying the law to human problems, his uplifting example among men, has gone beyond legal and judicial circles and made Justice Shurtleff admired and respected among all the people. When an opportunity is presented to keep men and judges of the type of Justice Shurtleff on the Supreme Bench the people should not neglect it.

The Supreme Court is in the keeping of the voting citizens and all complaints which may be raised against the court may be traced in the final analysis to the mistakes of the people in the election of the members of the court.

In voting for Justice Shurtleff, no mistake is possible. He is one candidate who should receive the unanimous approval of the electorate.

MONEY FOR STUDENT VETERANS

Veterans enrolled in ninety California schools and colleges as state wards under the veterans' educational law passed by the last legislature will receive \$20,000 within the next few days as payment for tuition and maintenance during the six months, January to June inclusive of this year.

This was the report submitted to Governor William D. Stephens by Robert F. Smith, secretary of the veterans' welfare board.

As funds for administration of the educational measure were withheld in February pending a ruling by the Supreme Court on the constitutionality of the legislation, this is the first state money advanced to student veterans, according to Smith.

A recent ruling of the court upheld all provisions of the statute, and former service men will receive tuition and maintenance money in monthly installments hereafter, it was indicated in the report.

Smith informed the Governor there are 679 California veterans enrolled at the present time in various educational institutions throughout the state. The majority of these, he said, are in state schools, approximately 200 attending the University of California. The veterans' welfare board at a recent meeting approved 87 applicants for educational training. Smith said, and action is now pending on 52 others.

The report pointed out the board has received 1775 applications for aid under the veterans' educational law which was sponsored in the last legislature by Governor Stephens and which provides that adequate educational opportunity shall be given California veterans. The legislature appropriated \$500,000 for the operation of this measure.

THE WATER AND POWER ACT

The gold brick game is as old as the world, but it has never before been tried by players so audacious as the little group of self-appointed guardians of the public welfare that are trying to foist on California the constitutional amendment which will make the water and power "act" law. Beneath the thin veneer of gold promises the gross reality of the dangerous proposal is apparent to every thinking person who reads the amendment that would pledge California irretrievably to a \$599,000,000 experiment in which the people of the state would have everything to lose and absolutely nothing to gain.

"Power at cost," and "control of the state's resources by the people" are pretty phrases indeed. But pretty phrases have been the stock in trade of schemers from biblical times down to the wildest oil stock saleman, the Ponzi and the Wallingford of our own days.

The water and power "act" should be judged by what it says itself, and not by the alluring promises made in its behalf by its proponents. The ray pictures painted by the friends of the proposed amendment cannot obscure such facts as these:

The act would place a \$500,000,000 mortgage on every bit of property in California, increasing the state's debt six times. And, either directly in taxes or indirectly in rates, the people of the state would have saddled upon them each year the huge interest burden of that overwhelming debt—at least \$25,000,000 a year additional in a state already groaning under taxes so heavy that they are greater than the value of all its crops.

The proposed amendment would place in the hands of a super-machine of five men, whom the people could neither select nor control, the unlimited right to spend that \$500,000,000 as they saw fit. The only thing the people would have to do with the whole impossible scheme would be to pay the bills.

The "act" would place this super-board entirely outside power of the civil service, giving it unlimited opportunities to create the greatest political machine of chair-warmer and tax-eaters that ever cursed any government. The "act" would create a power greater than the power of the people—a power that would absolutely control our farming, our industry, our commerce and about everything else except our right to live.

The proposed amendment is so dangerous, so unnecessary and so obviously absurd that any fate except its overwhelming defeat at the polls next November is unthinkable.

SOLID FOR STEPHENS

Stephens headquarters for the northern California campaign are now open at Tenth and K streets, Sacramento, with J. M. Higgins acting as campaign manager for the Sacramento valley and the northern counties.

"We find northern California lined up solidly for the governor," declared Higgins in a short statement issued this week. "Though it

WILLIAM D. STEPHENS

is conceded Governor Stephens will carry the state with ease, we are nevertheless planning a thorough campaign in the north. Indications point to the largest majority ever given a gubernatorial candidate in this section of the state. Close contests for a number of the county officers will call out a large vote in Sacramento county particularly, and this vote will be almost unanimous for Stephens. Petitions circulated in Sacramento county alone were sufficient to qualify the governor for a place on the primary ballot. I am frank to say that I find no opposition in northern California to the candidacy of Governor Stephens."

SEARCH FOR MURDERER

Sheriff William I. Traeger of Los Angeles county on Monday warned Sheriff Michael Sheehan to be on the lookout in San Mateo county for Jose Santa Cruz, a Mexican, who on July 17 shot and killed his wife, father-in-law and mother-in-law at Arroyo, Cal. Santa Cruz is said to be a desperate character and is thought to be in hiding in this section of the state. He is described as being 22 years of age, 5 feet 8 inches tall, weighs 150 pounds and is of light complexion for a Mexican. The sheriff has issued a warning to all county police officers and if Santa Cruz is in this county it is thought that he will be seen and placed under arrest.

MENLO PARK NEWS

Braden & Chester, two ex-service men, have opened a laboratory in the Maloney block for developing motion pictures. They have a moving picture show on the road for the government showing pictures of the world war. The films for these pictures will be developed here instead of back in the east as was done heretofore. The firm has a large and profitable business. Work for others will also be done at the laboratory. Mr. Braden was a sergeant at Camp Fremont, where he was very popular. After the war he married the pretty Angelina Broggi.

Last Monday evening Mrs. T. P. Hansen was given a farewell party by the Native Daughters. She is a charter member of Menlo Park, N. D. G. W. The following day Mr. and Mrs. Hansen left for their future home in Piedmont.

Thomas Cochran is erecting a new bungalow for Michael Sullivan on his property in the Selby tract near the county highway. For many years Mr. Sullivan has been superintendent of the Fair Oaks golf links.

Mr. and Mrs. James L. Flood, their daughter, Mary Elena Flood, and Mr. and Mrs. Edward J. Tobin are spending some time at the Del Monte Lodge at Pebble Beach. C. B. Robbins, an experienced furniture dealer of San Francisco, has opened a furniture emporium in the Maloney block. He has a large stock of the latest styles in furniture.

Mrs. Thomas Finn, wife of the popular sheriff of San Francisco, chaperoned a party of young ladies to La Honda on Thursday. They were the guests of Mr. and Mrs. James Carroll, who are camping there. Mrs. Finn was joined here on her way over the mountains by Mrs. Frank Derry.

Make no reservations for August 23. Save that date for the Native Daughters card party. It will be an enjoyable evening.

Henry Cowell, the talented pianist who recently returned from the east where his compositions made quite a hit, is giving recitals at Palo Alto that are drawing crowds. Mr. Cowell formerly resided at University Heights. His compositions, which are being published in New York, include the classical, romantic and ultra modern. Most interesting and entirely unique in his development of a new kind of chord, which he calls the "tone cluster," all the keys being played together and making an unusual and powerful effect, representing, as in one instance, the low, heaving tides, and in another the cutting brilliance of sunshine.

There was a no host dinner party at the Menlo Park Golf and Country Club on Saturday evening. It was an outdoor dinner and tables were placed on the wide veranda and on the lawn under the trees. They were lighted with colored lanterns. Among the members of the club who were present were Mr. and Mrs. Roger Lapham, Mr. and Mrs. Julian Thorne, Mr. and Mrs. Selah Chamberlain, Mr. and Mrs. Clinto La Montague, Mr. and Mrs. Harold Casey, Mr. and Mrs. Augustus Taylor, Mr. and Mrs. Arthur Watson, Mr. and Mrs. Roy Bishop, Mr. and Mrs. Arthur Hooper, Mr. and Mrs. Stewart Lowery, Mr. and Mrs. Charles McCormick, Mr. and Mrs. William Roth and Mr. and Mrs. Warren Spieker.

J. A. Ellis, a San Francisco business man, is building a home on Oak Grove avenue. The house, built in the Spanish bungalow style, will cost about \$8,000.

The government is remodeling the old buildings at the base hospital for temporary use. About \$75,000 will be expended in doing this work. These structures will be needed for the overflow of inmates in the new buildings that will not be occupied until late next fall. S. P. McClenahan, the tree doctor of Palo Alto, has been engaged by the government to treat all the oaks on the property.

Mr. McClenahan is an expert in this line. The members of the local fire department entertained the people of Menlo Park last evening at a social dance at the fire house. A large crowd was present to accept the hospitality of the fire laddies. They were splendid hosts, making pleasure for all. After dancing refreshments were served by the ladies, who provided the delicious cake and ice cream and other delicacies. The evening was one of the most enjoyable ever experienced in Menlo Park. J. E. Newman came down from San Francisco on Thursday to register in order to vote for his friend.

John O'Farrell, who was operated upon some time ago at the Palo Alto Hospital, has recovered and was able to return home during the week. It will be some time before he will leave his home. Mr. and Mrs. E. J. Crane are enjoying a well earned vacation at Santa Cruz by the seashore. Mr. Crane is an expert swimmer and fisherman. Mrs. De Lancy Lewis and her children motored last week from their home in Menlo Park to Montecito, where they are passing the summer with Mrs. Lewis' mother, Mrs. George Batchelder.

The new Italian restaurant, Ida Cafe, located in the Campfire building on the highway, is now ready to serve the public with first class meals. Special dinner with ravioli with quick order. Lunches will receive the best of attention by the proprietors, Conti & Lucchesi. Mr. and Mrs. Duncan Reynard motored to Modesto to visit friends for the week end. They leave for Lake Tahoe Thursday for a ten-day trip.

Mr. and Mrs. A. B. Fowler of Cueney, Wyo., are visiting Mrs. Fowler's brother, G. R. Felton, taxi man of this city.
